

## **Benz Micro**

Press Release January 2015

Neuhausen-am-Rheinfall, Switzerland

Following a successful exhibit at the 2015 Consumer Electronics Show in Las Vegas, Benz Micro begins shipments of **LP S**, **Ruby Z**, **SLR Gullwing**, **MC Gold**, and **MC Silver** cartridges to the USA.

As Benz transitions to the newly focused line-up, production is increasing to meet the demand for Benz cartridges worldwide. This transition period begins with the US market and will be phased into other global markets. In addition to the shipment of new Benz cartridges, the US has also received repairs and re-tips, some dating back to 2012.

As part of our new direction, we have now added a gallery of current Benz cartridges. In the near future, there will be an archival image gallery of previous Benz models. We hope you will enjoy this visual history of our products.

Please check with the Benz dealer or distributor in your country regarding the availability of new cartridges and the status of older repairs and re-tips. We request that all existing and new Benz owners work only with authorized Benz dealers and distributors, not with gray market or 3rd party vendors, to ensure you get the best products and services.
